Why we registered our logo and product names.

We have registered the name "CheeseBomb" / "Cheese Bomb" and trademarked our logo. Hence making us the sole legal user of the brand names.

Why the name "CheeseBomb"

An original brand name minted by my friend Tushita. She used to say, your party cheese balls are a blast! That struck a bell and we said **"CheeseBomb"**!

We are proud of our products and our brands. We wanted to protect our identity and give our customers the best and original experience.

Thanks

Anubha, Founder, CEO, FirstCrush.
